

# Form 5 ICT Elective Module C: Multimedia and Web Site Development

## School Based Assessment (SBA) Task 1

Set up a web site for selling movie tickets over the Internet. The web portal (homepage) provides the information of different movies and theatres. The following sample screen layout has been designed for customers to reserve movie tickets. Customers select the seats (by clicking numbered boxes or by drop down lists) and then click the 'confirm' button to proceed with the reservation.

Banner Area													
D	12	11	10	9	8	7	6	5	4	3	D	2	1
C	12	11	10	9	8	7	6	5	4	3	C	2	1
B	12	11	10	9	8	7	6	5	4	3	B	2	1
A	12	11	10	9	8	7	6	5	4	3	A	2	1

### Task 1 --- Design & Implementation

Create a prototype of the online ticketing system with one or more web pages, focusing on the input of ticket selection. The prototype should include:

- an extract of a video
- background music
- a tweened animation

You may consider some of the following key factors when designing the prototype:

- web site structure
- audience awareness and friendliness
- site map
- the use of multimedia elements
- hardware, platform, language and colour compatibility
- web accessibility

Create a presentation and/or documents to briefly describe the components involved in designing the prototype.
