

### F.4 Tourism & Hospitality Studies

Morning Talk – F.4 Tourism & Hospitality Studies

16 December 2025

Grace:	Good morning, principal, vice principal, teachers and fellow schoolmates. I'm Grace from 4A.
Annie:	I'm Annie from 4B. We are both students studying Tourism and Hospitality Studies.
Grace:	Today, we would like to share with you how to use the pandas born in Hong Kong to attract tourists and promote the tourism industry in Hong Kong.
Annie:	On August 15 <sup>th</sup> 2024, Panda Le LE and Ying Ying gave birth to a pair of boy and girl twins- the first pair of giant pandas born in Hong Kong. Panda Ying Ying became a mother on the day before her 19 <sup>th</sup> birthday, which made her the oldest first-time pregnant panda on record. It is rare that a panda would give birth at such a high age. Can't believe it happens in Hong Kong!
Grace:	Now, we are going to propose three ways to use local pandas to attract visitors and promote tourism in Hong Kong. First, we should work with Ocean Park to launch some educational events, such as exhibitions and workshops. Of course the theme should be on Hong Kong-born twin pandas.
Annie:	Second, the government could also work with the Tourism Board to make some made-in-HK panda souvenirs, such as magnets and postcards, to sell or give out.

### F.4 Tourism & Hospitality Studies

Grace:	Last but not least, we could display some panda sculptures in the city for tourists to take selfies or check-in. It is actually happening in the Star Avenue in Tsim Sha Tsui, where 2500 little panda sculptures are now being shown as exhibits at the harbourfront.
Annie:	We can see that the newborn twin pandas do not only bring us joy and laughter, but also tourists and opportunities. This is the end of our sharing. Thank you.
